

**REMARKS**

Continuing data has been inserted on the first page beneath the title.

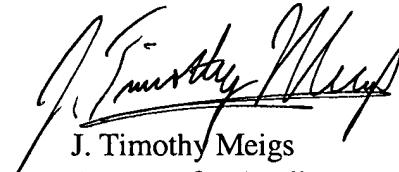

In a parent case, the Examiner noted that the trademark MIMIC should be accompanied by the generic terminology. Accordingly, the specification has been amended to insert the common name for MIMIC, "tebufenozide". Applicants suggest that this does not amount to an addition of new matter, for the compound is referred to in the specification by its trade name MIMIC as well as by development code RH-5992. All of these names, tebufenozide, MIMIC, and RH-5992, are synonymously referred to in Tomlin, E.D.S., ed. The Pesticide Manual, Eleventh Edition, British Crop Protection Council: Surrey, UK, 1997, pp. 1147-1148 (attached hereto as Exhibit A).

The specification has also been amended to update the status of several referenced application serial numbers.

Claims 26, 28, 31, and 32 have been amended. Claims 1-25, 27, and 36 have been cancelled without prejudice or disclaimer. New claims 37-41 have been added. Thus, the pending claims are 26, 28-35, and 37-41.

The Examiner is respectfully requested to enter the above amendments before calculation of the claim fee and commencement of substantive examination. If in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call Applicants' undersigned attorney.

Respectfully submitted,

  
J. Timothy Meigs  
Attorney for Applicants
